

1. System Features
☐ Dashboards/scorecards
☐ Reporting abilities/analytics
☐ White labeling/branding
☐ Customization of look, reports, dashboards, etc.
☐ Application Program Interfaces (API's) (ie benefit/WC carriers, ATS, LM
etc)
Establish calendars to delete, store or back-up data
☐ Mobile access across platforms
☐ Cloud based vs desktop
Cyber security and other IT protocols
Ability to transfer employee across depts, locations, etc.
☐ Email Alerts
☐ Keyword or ease of search capabilities
☐ Employee Self Service
☐ Manager Self Service (level of access to information)
Administrator, Manager, Employee, Finance, IT, etc customized views
(Access restrictions/permissions for data security)
2. Administration
☐ Organization charts
☐ Workforce planning/analysis/predictive analytics
$\square$ Analytics/reporting (Canned and ease of ad hoc)
oxdot Communication/reminders (i.e. birthdays, document destruction)
$\square$ Personnel file storage (ease of upload)
$oxedsymbol{\square}$ Access to documents (integrates with ?)
Time and attendance/scheduling
Leave management
Claims management
☐ Handbook Maintenance
☐ Job and pay history
Salary Change Requests
☐ Employee Safety History
☐ FLSA
☐ Succession Planning

3. Hiring capabilities in HRIS (Applicant Tracking System is often a separate system but some HRIS offer basic ATS functionality and new hire paperwork support) ☐ Reauisitions ☐ Job description builder ☐ Internal posting of jobs Recruiting tie-ins to Indeed, LinkedIn, etc. Applicant tracking system (additional module or through API to another product or other systems) ☐ Interview documentation storage ☐ Tie-ins to testing and assessment software ☐ Tie-ins to background checks ☐ Criminal ☐ Credit ☐ DMV/MVR ☐ Drug test ☐ Immigration compliance Document management ☐ New hire docs like W-2 (Full onboarding module or just new hire paperwork?) Contracts/Offer letters Auto-fill and retain (ideally through info collected on application) Electronic signatures ☐ Retention and destruction calendaring ☐ Payroll integration and reporting ☐ Mobile access Onboarding process Analytics/reporting (Canned and ease of ad hoc) 4. Performance Management Canned performance reviews/ease of customization of reviews Assign goals/KPI's Develop metrics and timelines ☐ Employee self-assessment ☐ Manager 360 Project management of annual review process, ongoing feedback, etc Performance Reviews, Notations, discipline, PIP ☐ Termination procedures ☐ Exit interview

☐ Employee surveys

Analytics/reporting (Canned and ease of ad hoc)

5. Training (Most HRIS systems have some ability to track training,	
certs, etc)	
☐ LMS system – stand-alone or API tie-in	
Available training titles: compliance, leadership, technical, etc.	
☐ Upload company developed training	
☐ Employee career development training paths	
☐ Enrollment	
☐ Employee skill inventory	
☐ Notices/certificates/licenses	
☐ Analytics/reporting (Canned and ease of ad hoc)	
6. Compensation Management	
☐ Setting compensation ranges	
☐ Bonuses: discretionary and non-discretionary	
☐ Create compensation plans	
☐ Pay equity analysis	
☐ Salary history	
$\square$ Pay grades	
☐ Pay grades
